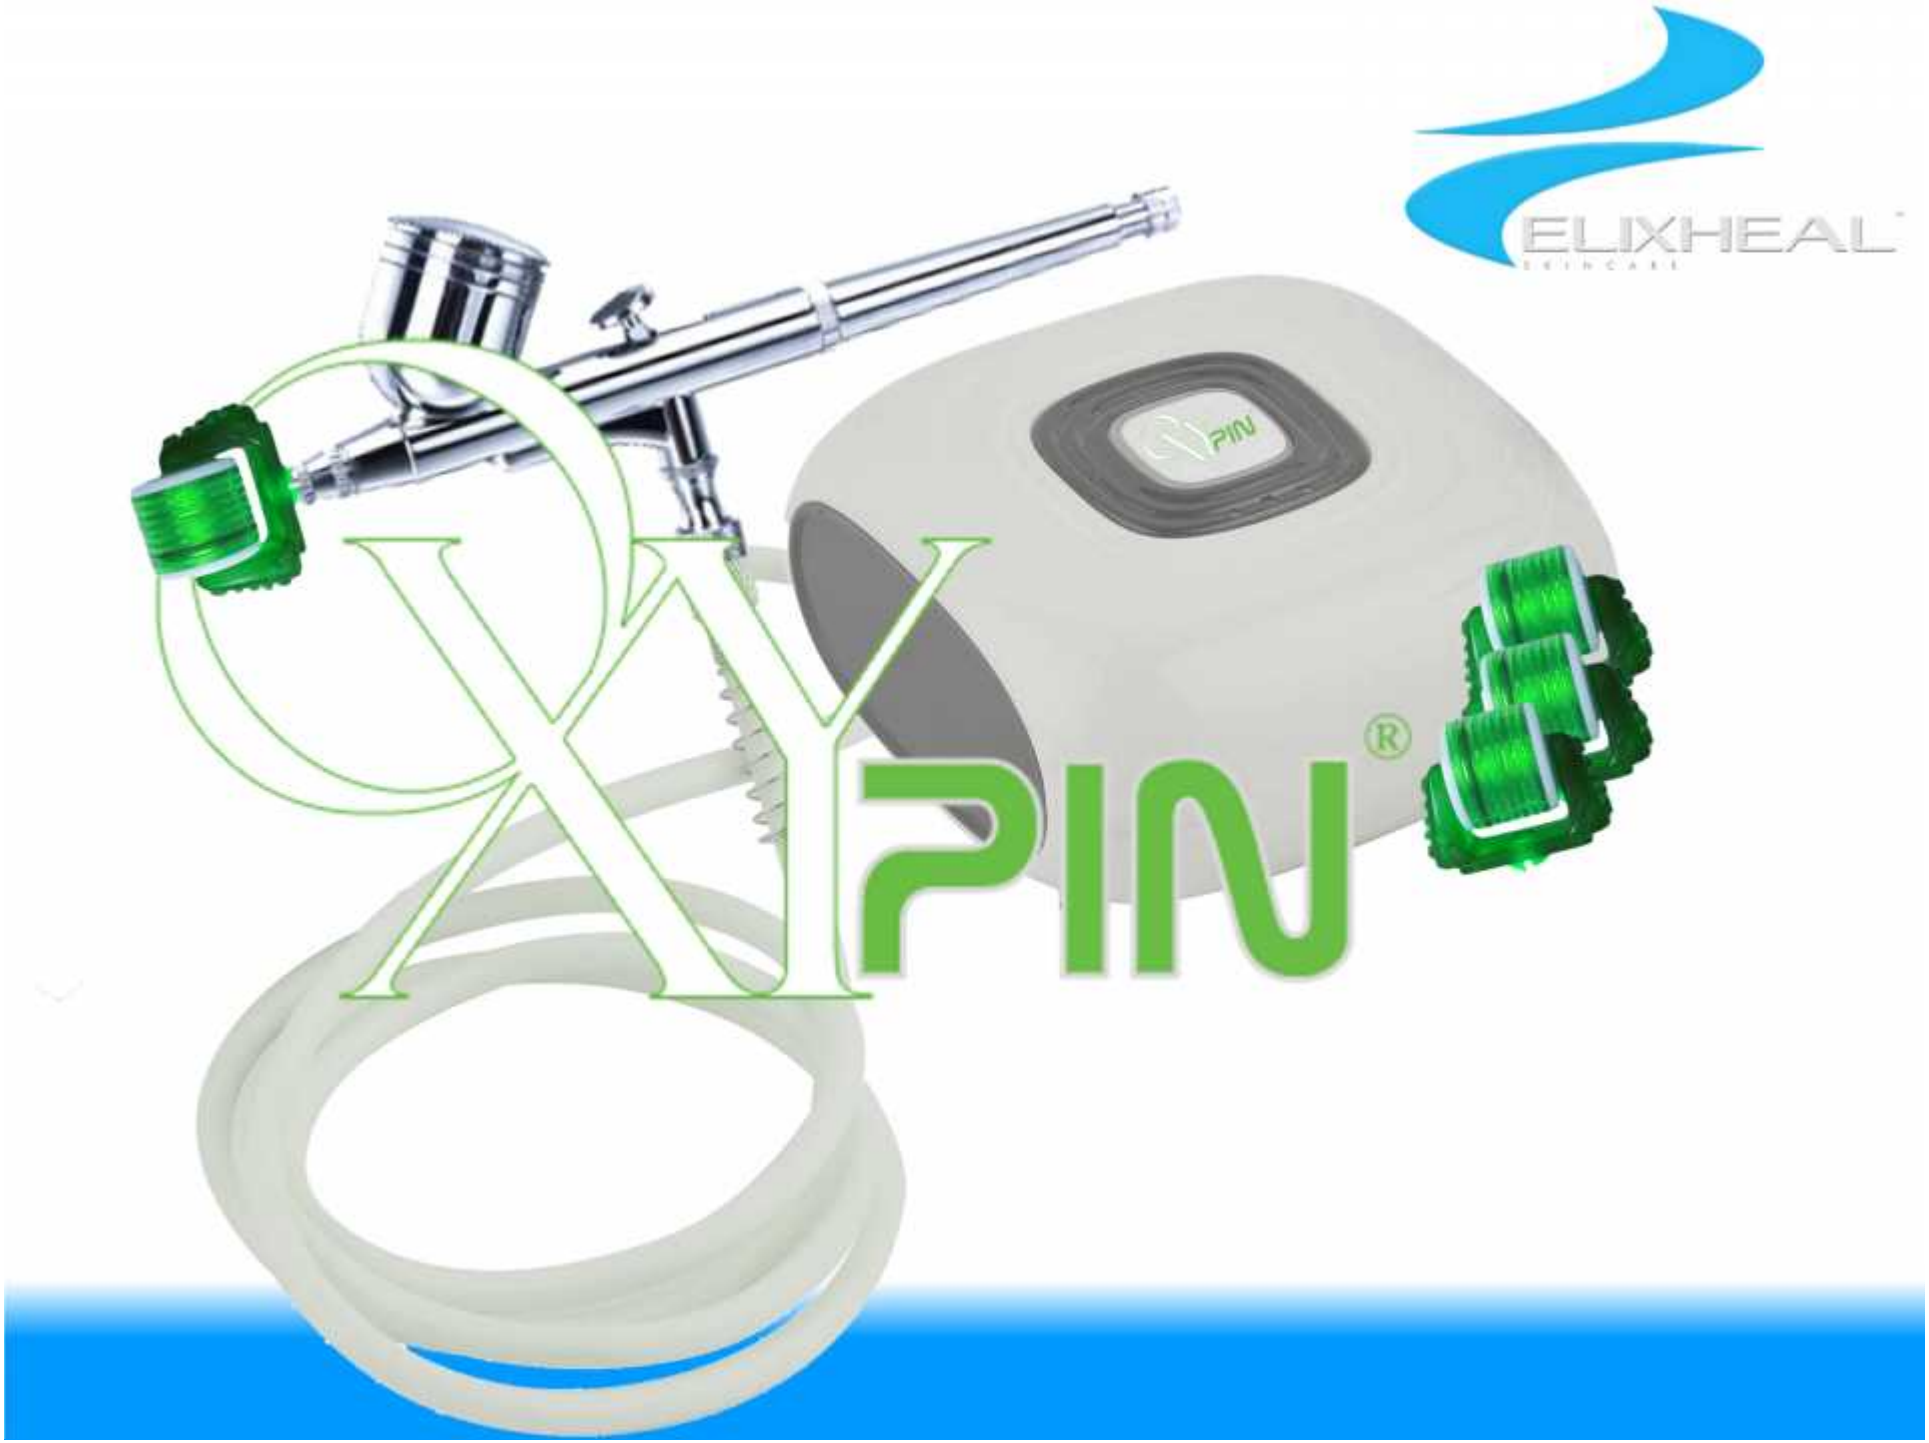
ELIXHEAL™

SKINCARE



ELIXHEAL
OXYPIN®

# Oxygenated MicroMesotherapy?

Microneedling+Mesotherapy = Micromesotherapy + Oxygen

Simultaneous activation of several physiological processes in synergy.

Oxygen: increase the metabolic processes in cells and,
↘ therefore, the function of body tissues.
Booster effect of Autologous Collagen Production (CIT) and topical application of a pulverized liquid solution,
to a high rate of penetration / absorption (over 76%)
during prothrombin time.

# Prothrombin Time (PT)

NIH National Institutes of Health

MedlinePlus
Trusted Health Information for You

WebMD

Coagulation Factor: It measures the time it takes for blood to clot.
Average time of 11 to 13 seconds.

Coagulation reactions tend to occur along with platelets activation.
Together, the two systems form a clot.

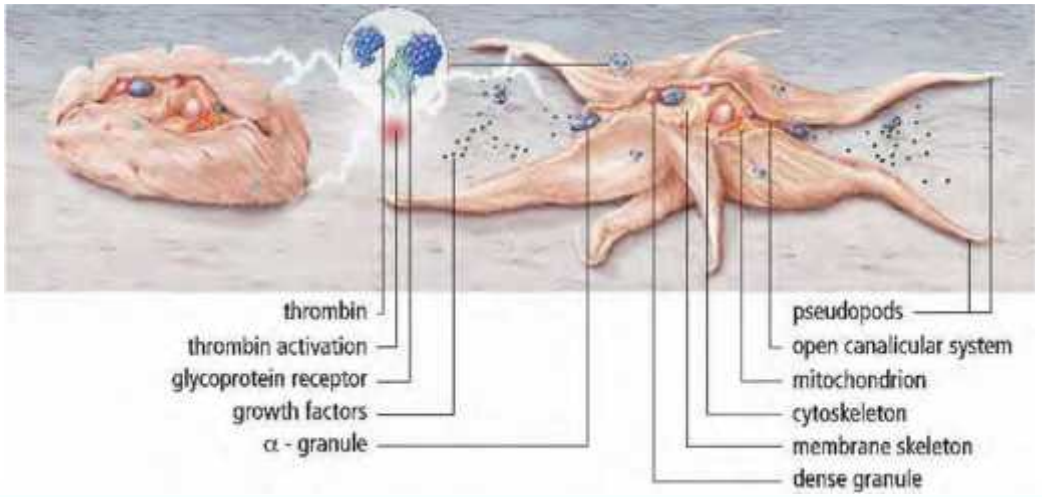
When a platelet encounters a break in the endothelium, it "meets" with molecules that trigger its activation.

i.e. COLLAGEN!



# ULTIMATE SKIN TREATMENT

## 3 in ONE PERFORMANCE

(Hydro-)Oxytherapy

+

1. Microneedling
2. Mesotherapy (meso-nappage)
3. Double Pulverization System

# Long-lasting results... yes!

The first important thing is to understand the difference between
a Skin treatment and EFFECTIVE Skin treatment.

EFFECTIVE Skin treatment :

a. Respects clinical aesthetic protocols for skin care (i.e. corneolisis, post-inflammatory antioxidants, etc.)

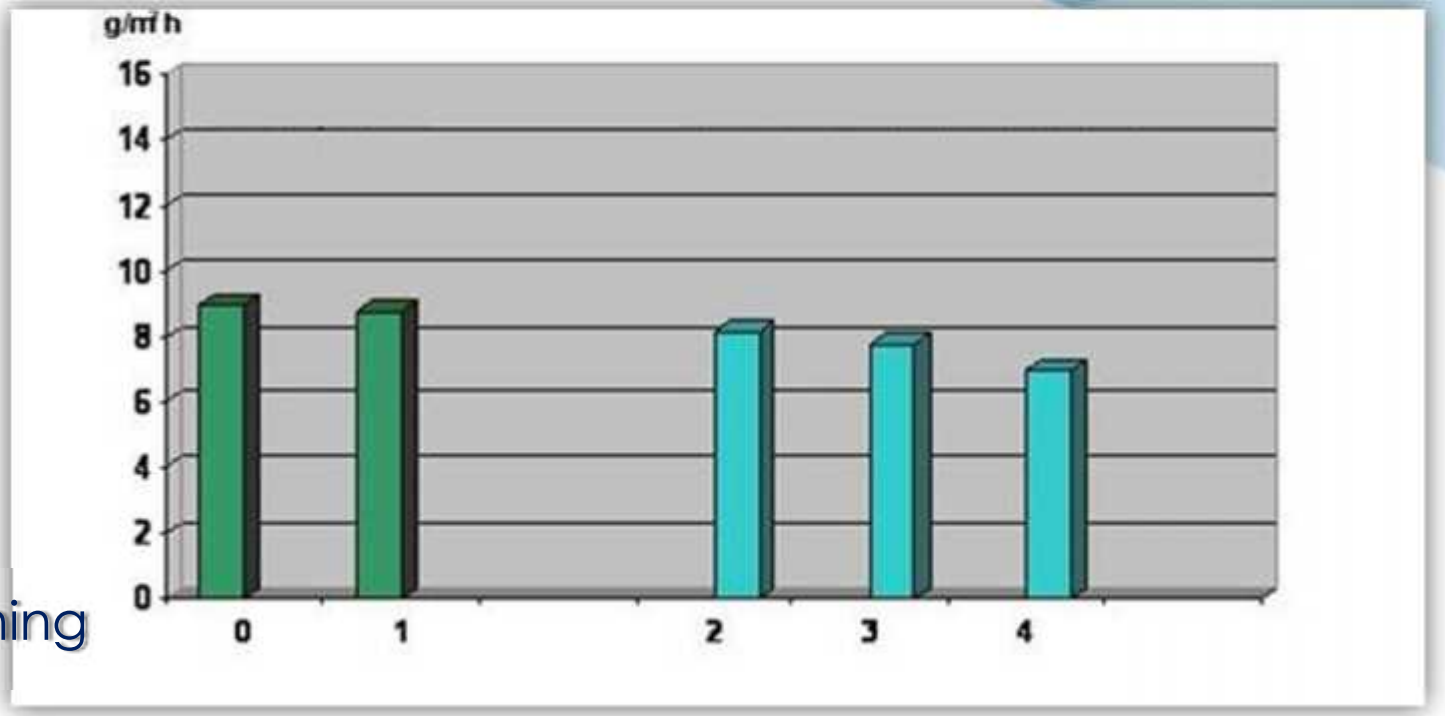
b. Ensures application of sterile and NON OXIDIZED products.

c. "Cheap" is not synonymous of professionalism! Use professional devices...something not available on amazon!

d. Instruct the patient-client about the maintenance of the skin results at home.

# Long-lasting results... yes!

## Reduction of TEWL (Transepidermal Water Loss)



Meaning

0 Original Tewl
1. Tewl ofplacebo treatment after a month.
2. Tewl of effective treatment after 10 DAYS.
3. Tewl of effective treatment after 20 DAYS.
4. Tewl of effective treatment after 30 DAYS.

| FEATURES | ADVANTAGES |
| --- | --- |
| Anti-leakage System | No product waste |
| Oxygen mixed Technology | Double pulverization by mixing oxygen under pressure |
| Stainless Steel Tank+Perforated Cap | No risk to oxidize or lose sterility |
| Electronic Pressure Regulating Mode | Oxyflow stability ensures accurate and precise application |
| Perfect Layer Effect | Evenly sprayed and greater coverage in one passage |
| 3'N 1 Performance | Combined procedures OxyTherapy+Micro-Mesotherapy and product transfer simultaneously |
| Mini-compact Shape | Easy to carry and clean |
| Ergonomic | Air hose flexibility and light-weight airgun for easy handling |
| Airgun Holder | Practical and hygienic operation |

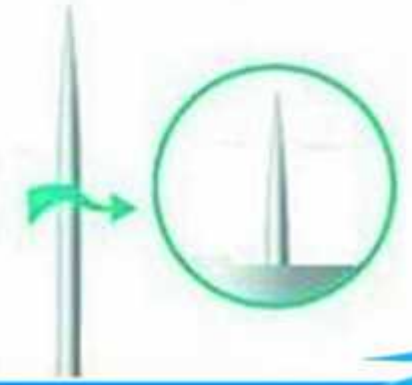
QYPIN®

ELIXHEAL SKINCARE

* EZ TO CLEAN, CARRY AND HANDLE *

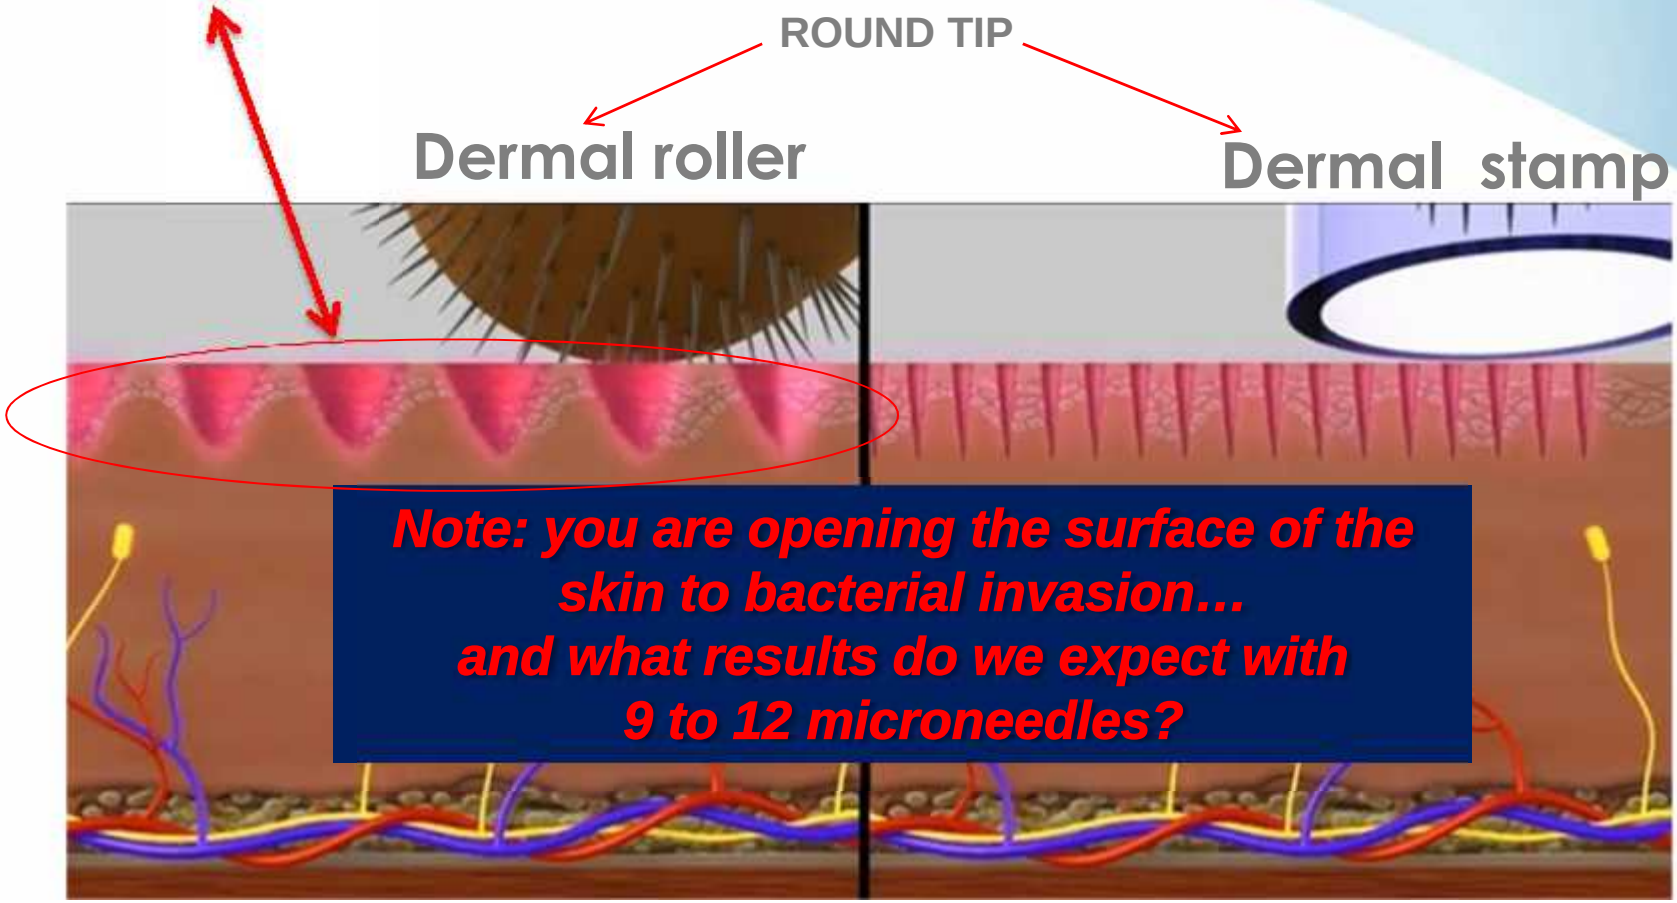
QYPIN®

| MicroPin540 - diamond tip | Round tip - wire type roller |
| --- | --- |
| **FAKIR Roller type** | |

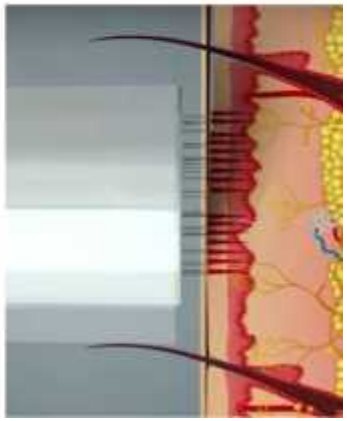


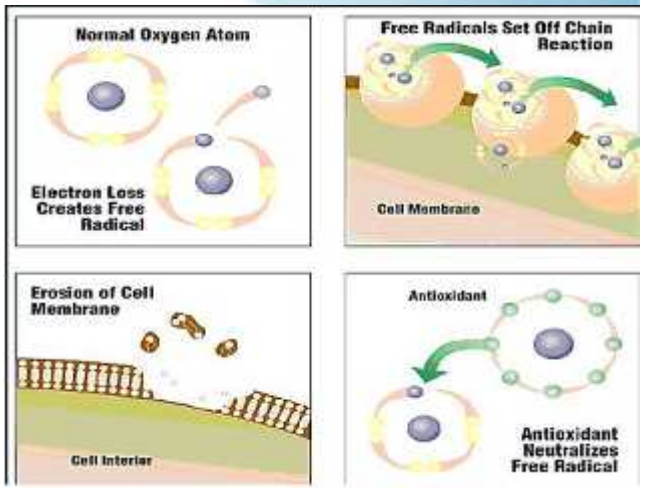
ELIXHEAL

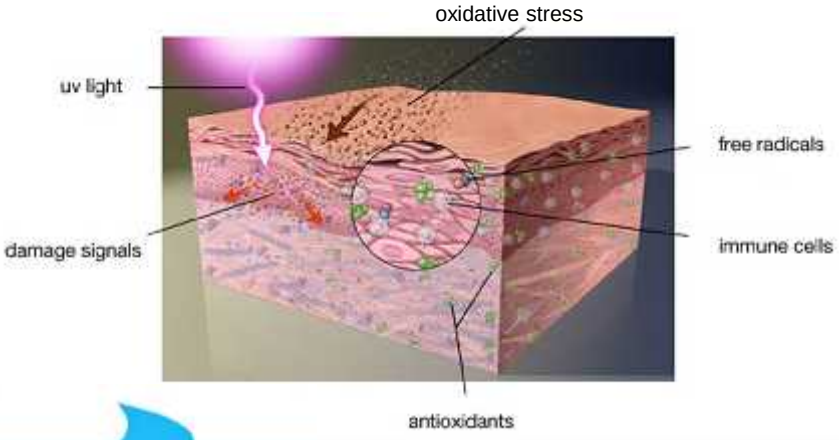
This happens with rollers
**ROUND TIP - "WIRE" TYPE**

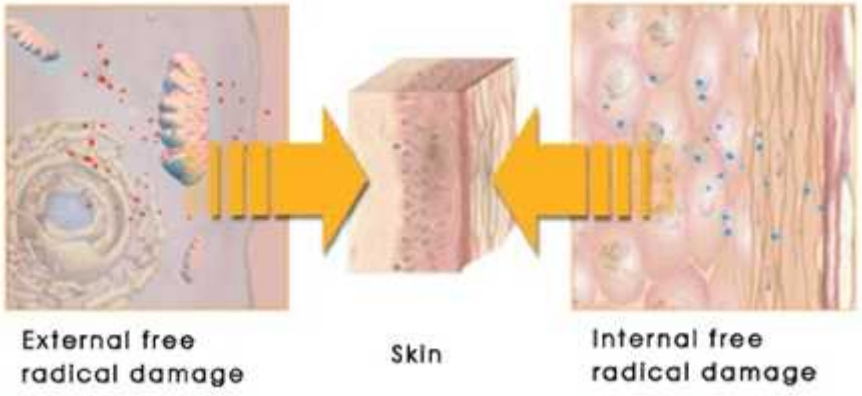


# Do not forget about PROTHROMBIN TIME (PT)…









## New Generation dermal roller

NO skin damages!

Suitable for face and body treatments
Greater coverage in one passage
Faster results

absorption of the product is increased
from the usual 4% to as a much as 87%

MicroPin540 - diamond tip

evenly treated skin

Stable and **inflexible** 540 microneedles
Titanium microneedles stronger and more durable

ELIXHEAL

# Treatment of a Keloid

**Subject**: woman, 28yrs, Fitzpatrick 1.
**Object**: keloid from a double surgical operation to eliminate cancer.
The keloid is 22 years-old.

Results after 1 treatment only

Amount of Essentia 0,3 ml – diluted 1:1
Amount of Skinens 0,07 ml-g

Use of **OxyPin** device, Micropin540 - size 0.5mm

**Result**:
keloid results in smoother edges, slightly restored dyschromias and less protruding scar.

# Treatment of hyperpigmentation

**Subject**: woman, 28yrs, Fitzpatrick 3.
**Object**: hyperpigmentation from a 1st degree burning.

Results visible after only 1 treatment.

Amount of Essentia 0,3 ml – diluted 2:1
Amount of Skinens 0,07 ml-g

Use of **OxyPin** device, Micropin540 - size 0.5mm

**Result**:
the hyperpigmentation results almost vanished after the 3rd treatment.

After the 5th treatment, the original skin complex is restored and it is evident the skin restructuring action on the treated area.

# Treatment of frown lines on the forehead

**Subject**: woman, 58yrs, Fitzpatrick 3.
**Object**: frown lines.

Results visible after 1 treatment only.

Amount of Essentia 0,1 ml – diluted 1:1
Amount of Skinens 0,07 ml-g

**Before** **After**

**Result**:
reduction and smoothness of frown lines.

# Treatment of nasolabial folds

**Subject**: woman, 42yrs, Fitzpatrick 4.
**Object**: Nasolabial folds.

**Before** **Before**

Results visible after 1 treatment only.

Amount of Essentia 0,3 ml – diluted 1:1
Amount of Skinens 0,07 ml-g

**After** **After**

**Result**:
evident reduction of the depth and increase in skin elasticity and hydration.

# Treatment of forehead

**Subject**: woman, 72yrs, Fitzpatrick 2.
**Object**: fine wrinkles and very dry skin to due the age.

**Before** **Before** **Before**

**After** **After** **After**

Results visible after
<u>1 treatment only</u>.

Amount of Essentia 0,2 ml – diluted 1:1

Amount of Skinens 0,07 ml-g

**Result**:
noticeable lifting effect, wrinkles reduction, skin hydration and tone.

# Higher Profits and Customer Loyalty

**1.** TREATMENT of all skin IMPERFECTIONS with the Same Product, on the Same session!
